```java
public class BaseEmployee extends Employee {
    private int baseSalary;
    public BaseEmployee() {
        baseSalary = 0;
    }
    public int getBaseSalary() {
        return baseSalary;
    }
    public void setBaseSalary(int newBaseSalary) {
        baseSalary = newBaseSalary;
    }
}
```
